PROJECTS

Newsroom Automation Platform | *Python, Telegram Bot API, GitHub Actions* **2025 – Present**
- Built a 14-bot network that collects, ranks, and deduplicates news across 9 Telegram channels daily, fully automated on GitHub Actions.
- Implemented event-based duplicate protection, scheduled execution, API failover, and image-fallback handling for reliable 24/7 publishing.

WORKSHOP Automation System | *Apps Script, Google Sheets* **2026 – Present**
- Built an end-to-end workshop management system handling registration, certificates, and email for Finance Club PSTU events.
- Powers the club's workshop program: 2 workshops delivered with 150+ participants.

LetterShare | *Next.js, TypeScript, Firebase* **2026**
- Built a full-stack social platform for publishing and reading letters, with author profiles, real-time chat, and PWA support. Live: shareletter.vercel.app

DocFlow | *Kotlin, Jetpack Compose* **2026**
- Built a native Android Markdown editor and document converter with PDF/DOCX import, OCR, and text-to-speech.

ACHIEVEMENTS

- First Place, General Knowledge Competition (2016).
- Second Place, Inter-School Debate Tournament (2017).
